

YEARLY STATUS REPORT - 2022-2023

Part A

Data of the Institution

1.Name of the Institution	
	Jawahar Medical Foundation's Annasaheb Chudaman Patil Memorial Medical College, Dhule
• Name of the Head of the institution	Dr Prashant V.Solanke
• Designation	Dean
• Does the institution function from its own campus?	Yes
• Phone No. of the Principal	02562276318
• Alternate phone No.	02562276319
• Mobile No. (Principal)	9751926130
• Registered e-mail ID (Principal)	deanacpm@gmail.com
• Alternate Email ID	dean@jmfacpm.com
• Address	Sakri Road,
• City/Town	Dhule
• State/UT	Maharashtra
• Pin Code	424001
2.Institutional status	
• Affiliated / Constitution Colleges	Affiliated
• Type of Institution	Co-education
• Location	Semi-Urban

• Financial Status	Private				
• Name of the Affiliating University	Maharashtra University of Health Sciences, Nashik, M.S.				
• Name of the IQAC Co-ordinator/Director	Dr Rajesh C. Sharma				
• Phone No.	02562276317				
• Alternate phone No.(IQAC)	8459437811				
• Mobile No:	9897001893				
• IQAC e-mail ID	iqac@jmfacpm.com				
• Alternate e-mail address (IQAC)	drrcsharma@jmfacpm.com				
3.Website address (Web link of the AQAR (Previous Academic Year)	https://jmfacpm.com/pages/Self-Study-Report.html				
4.Was the Academic Calendar prepared for that year?	Yes				
• if yes, whether it is uploaded in the Institutional website Web link:	Yes				
5.Accreditation Details					
Cycle	Grade	CGPA	Year of Accreditation	Validity from	Validity to
Cycle 1	B+	2.66	2022	25/07/2022	25/07/2025
6.Date of Establishment of IQAC			06/02/2020		
7.Provide the list of funds by Central/ State Government-UGC/ICSSR/ IUCTE/CSIR/DST/DBT/CPE of UGC/PMMMNMNTT etc.					
Institution/ Department/Faculty	Scheme	Funding agency	Year of award with duration	Amount	
Nil	Nil	Nil	Nil	Nil	
8.Whether composition of IQAC as per latest NAAC guidelines			Yes		
• Upload latest notification of formation of IQAC	View File				

9.No. of IQAC meetings held during the year	4	
<ul style="list-style-type: none"> Were the minutes of IQAC meeting(s) and compliance to the decisions have been uploaded on the institutional website? 	Yes	
<ul style="list-style-type: none"> (Please upload, minutes of meetings and action taken report) 	No File Uploaded	
10.Whether IQAC received funding from any of the funding agency to support its activities during the year?	No	
<ul style="list-style-type: none"> If yes, mention the amount 		
11.Significant contributions made by IQAC during the current year (maximum five bullets)		
Permission to start new postgraduate program in Dermatology and increased 10 seats in existing postgraduate programs and Installation of cath lab and increase in existing operation theatres		
Training program for faculty and administrative employee for sensitisation in terms of IPR, MLC record keeping, advanced computer skill, Organ Donation, and implementation of quantitative annual appraisal system on digital platform.		
Revision of criteria for identification of slow and advanced learner for first MBBS and developed module for implementation w.e.f.2023-24 with newer initiatives for midcourse internal evaluation		
Training programs for developing newer tools for assessment for skill training and monitoring by trainer and peer to peer using ICT for certification and process of digital transformation of newer initiative has been initiated.		
Multiple training programs for Development of E-content, E-courses for faculty to develop e-resources for students and faculty for providing self-paced learning environment of outcome based CBME Curriculum		
12.Plan of action chalked out by the IQAC in the beginning of the Academic year towards Quality Enhancement and the outcome achieved by the end of the Academic year (web link may be provided).		

Plan of Action	Achievements/Outcomes
<p>Follow up action for starting Cath Lab with Local Managing Committee to provide necessary infrastructure, sanctioned the post for medical and technical staff.</p>	<p>Cath Lab is established and function with requisite medical and non-medical staff.</p>
<p>To undertake initiatives to fulfil the requirement of Academic bank of credits and NAD registration in alignment of NEP 2020</p>	<p>NAD registration is attempted but it is not required as per the letter from statutory authority as our college is affiliating institution. Process of registration by the Students and faculty have already begin. Continuous follow up is in process by Nodal officer appointed by the College.</p>
<p>To adopt the Outcome based education in teaching and learning practices</p>	<p>Structured objective based monitoring of skill learning is already prepared and implementation is approved by the Local Managing Committee.</p>
<p>To develop competency specific skilling modules to be offered to students</p>	<p>Curriculum Committee has taken a step forward to resolved that every department will conduct practical per month in skill lab with appropriate documentation in digital template. The resolution of curriculum committee is recommended by college council and approved by Local Managing Committee</p>
<p>To enhance Air-conditioning of reading rooms of central library</p>	<p>Four Split air conditioners have been installed in reading rooms of Central Library. Increase in Number of Online Scientific journal have been subscribed in Central Library</p>
<p>To create Archive Section in the Central Library</p>	<p>Archive Section is being created in the Central Library</p>

<p>To enhance funding from Government Funding for research and Innovation</p>	<p>IQAC has taken steps for recognition of college from SIRO. The Application for recognition is registered and submission of application is in process</p>
<p>To increase in postgraduate in more broad and super specialities</p>	<p>The NMC has granted permission for increase in postgraduate seat from 14 seats to 24 seats in existing postgraduate program and starting new postgraduate course in Dermatology. The college has also applied for starting DNB postgraduate Program in Otorhinolaryngology, Respiratory Medicine, Psychiatry and Emergency Medicine. The Further action for grant of permission is under process.</p>
<p>Evident documentation of E-governance and increase areas of E-governance</p>	<p>The E-governance is enhanced in the areas of teaching learning, Domain-based e-mail id is generated and implemented. E-governance documentation is continuously monitored by IQAC Co-ordinator.</p>
<p>To record analysis of feedback reports from stakeholders</p>	<p>The Feedback analysis and action report is documented and being monitored by the IQAC and has commenced the process to identify areas for improvement in quality T-L process, assessment for preparation plan of action on the basis of feedback analysis for improvement</p>
<p>To revisit criteria for identification of slow and advanced learner</p>	<p>The criteria for identification of slow and advanced learner for First MBBS is redefined and Local Managing Committee approved recommendations of curriculum committee resolution for implementation w.e.f.</p>

	2023-24. The Module is already developed by IQAC
To motivate faculty for research activities and publications	The faculty members have been sensitised by organizing seminar, workshop on intellectual property rights, copyright for techniques & design registration. The number of faculty publications have increased substantially. Further College has applied for registration of online Scientific journal for ISSN number.
To use ICT for T-L and Assessment of learning outcomes to ensure transparency and objectivity in Value added Courses.	IQAC in association with members of curriculum committee has developed ICT for Value added program in clinical courses to facilitate self-paced analytical skill learning through learning management system and implemented w.e.f. academic year 2022-22.
To sensitized faculty for E-course development/content for remote learning for self-paced learning and assessment of CBME Curriculum	The IQAC has organised multiple workshops for faculty for structured module for E-course on capability enhancement module. The formal approval of local managing committee is still awaited in next meeting scheduled in August 2023.
To trained the faculty for newer tools for assessment for "know how" and "show how" skills.	The in association with IQAC with Curriculum Committee & Medical Education has conducted nine workshops for faculty and other stakeholder and developed newer assessment tools using ICT for certification of course specific
13. Whether the AQAR was placed before statutory body?	Yes

- Name of the statutory body

Name	Date of meeting(s)
Local Managing Committee	25/07/2023

14.Does the Institution have Management Information System?

Yes

- If yes, give a brief description and a list of modules currently operational

Modules of Management information system modules: Enterprise Resource Planning Module [ERP]: This is software developed and maintained by Ms/ SyNchRonik Inc. E-Governance system of ACPM, installed in 2021, comprised of Admission Module for management of Admission data of admitted students, maintain reord of marks of internal assessment, Account Module tuition and mess fees , Store and Purchase Module for maintanance of inventory of equipments and instruments, Library Automation Module for automation of library services e.g. access to library resources, managing book reservation and issue and stock management to students and staff, classification & catalogue of books, journals and periodicals, Hostel Module for allotment of room & maintanance, Human Resources Module for employee profile, data for maintaing faculty profile, report generation for affiliation, inspection etc, Mess Module records. All students have registered on ERP Module. The customised report generating from ERP software provide the insight to college administration for identification of weak areas to be addressed for undertaking initiatives for quality improvement and assurance and monitoring the time line of e-governance as per benchmarks to acheive the excellence. AEBS Biometric System: Aadhar based biometric attentennce system developed by NMC ACPM LMS: Learning Management system [LMS]: Moddle based comprehensive Learning Management System which is an open source, offers course for delivering and assessment curricular training resources, online quiz, assignments and forum for interactive session with faculty after teaching hours and academic administration e.g. teaching schedule, learning outcome, course content etc. Learning Management System is also used for condcting co-curricular activities i.e. Value added courses, pool of resources, conduct of capability enhancement program and soft skill courses in online mode for self-paced learning, thus provide the students opportunity to learn in multi-disciplinary environment as an initiative to acheive objectives of NEP-2020. Plagiarism Check

Software: Plagiarism Check Software for promoting quality research work of postgraduate students and faculty before approval of research protocol for thesis and publication of manuscripts. Ex-Physio: for demonstration of CAL based Experimental Physiology in place frog and mammalian experiment. Ex-Pharma for demonstration of CAL based Experimental Pharmacology in place frog and mammalian experiment. Hospital Information Management system has been installed by clinovationssystems.com for registration of OPD, admission to IPD in different specialities, Deliveries, Operations, Investigations, Stock register, Purchase order, ICD classification,

15.Multidisciplinary / interdisciplinary

The College has already implemented multidisciplinary approach for imparting medical education in phased manner w.e.f academic year 2019. The CBME curriculum competencies in each course already included competencies of relevant to other courses relevant to medical attributes and suggested methods of teaching-learning and assessment tool. The college curriculum has consolidated the list of competencies to be learned by the student crossing boundaries between different courses of different phases of MBBS and uploaded ACPM LMS and College website for information of students and faculty. Each department imparted its part of competencies integrating with relevant competencies prescribed for other department in same session and /or by relevant departments as seminar/symposium. Multidisciplinary T-L sessions were organized by group of faculties from different department to impart holistic understanding of the competencies during CME. The vision and mission of college thrives more emphasis on improvement of health indices of tribal & rural areas of Dhule district. The college has implemented one of its best practices to provide health care services and educate children of tribal & rural areas by organizing health education seminars and multi-diagnostic camps. The MBBS and MD/MS students with faculty participate in outreach activities to transform its vision mission into practice. The students during their clinical posting session undertake family health surveys and analyses the prevalence of disease pattern, socio-economical status, socio-environmental etiological contribution in genesis of disease, thus students were trained to acquire holistic and multidisciplinary based community oriented medical education in addition to hospital based learning. While adopting multidisciplinary, the medical department has planned program for training of its faculty members for developing skills to use of newer assessment tools for quantification of measurable learning outcome during mid course improvement evaluation for attainment of higher order domain. The students were subjected to continuous assessment periodically at the

end of each term examination, class test after each system, viva voce, Skill assessment of multidisciplinary learning has also been assessed during clinical posting and practical lab session using OSPE/OSCE during pre and post learning session. Other assessment tools used grading of logbook, laboratory journal. The college has developed digital mechanism to introduce innovative assessment tools e.g. project based report, collection of information from digital resources on a topic allotted to student, preparation of checklists for measurement of learning outcome, exercises for analysis and comprehension of reports, analytical questions on graph/chart/photos, assessment of assignment of artwork on cutting edged issued for community awareness e.g. organ transplant, blood donation, burn calories and save energy, yoga postures, observations by faculty, group of faculty and peer to peer assessment to quantify level of achievement of medical attribute in terms of knowledge, skills , creativity, self assessment and communication were recorded and announced.

16.Academic bank of credits (ABC):

Our College has complied with the direction issued by NAAC and National Medical Commission regarding registration on Academic Bank of Credit and National Academic Depository via DigiLocker. The process of registration on ABC portal is ongoing. Some of the faculties and students of the institution have registered under the ABC to avail the benefit as envisage by the Academic Bank of credit using Digi Locker. The registration ID of registered members can be viewed as link: ABC Bank The remaining students and faculty are being followed up for registration and in process of uploading the their certificates, marksheets acquired as academic achievements. Our college being an affiliated to Maharashtra University of health Sciences, Nashik, M.S., All the marksheets, degree certificates, migration certificates for different phases of MBBS program and MD/MS Program are issued by the University, Hence presently affiliated medical colleges to to Maharashtra University of health Sciences, Nashik, M.S. are not allowed to register on National Academic Depository portal [NAD]. The Head of Institution and IQAC has been informed that registration on NAD via DigiLocker of medical colleges affiliated to Maharashtra University of Health Sciences are on hold. The institution has nominated IQAC Coordinator as nodal officer to ensure implementation of registration of remaining faculty and students on Academic Bank of Credits (ABC) as compliance of direction of NMC and NAAC regarding implementation NAD/ABC contemplated in NEP 2020.

17.Skill development:

The College is affiliated to Maharashtra University of Health Sciences, Nashik, M.S. and governed by regulations stipulated by the affiliated university and National Medical Commission New Delhi. The course specific skills outlined in CBME curriculum prescribed by National Medical Commission New Delhi is implemented as per the directions of affiliating university for each phase of MBBS as well as MD/MS program. The college has taken initiatives for monitoring of the learning process and measuring the level of attainment of intended learning outcome by the learners. The central skill lab has been upgraded with increase in number of simulated equipments, mannequins, and simulators for training of skills prescribed in CBME curriculum. The curriculum committee has prepared skill modules for different phases of MBBS/MD/MS program and teaching schedule of skill training at Central Skill Lab. Faculty participating in skill training has been asked to prepare scheme of skill training. Pretest and post test has been developed for implementation w.e.f. 2023-24 for monitoring the skill training and assessment of attainment by each participant. The institution has identified some of skill based value added courses aligning with CBME Curriculum to enhance the competencies focusing skills for geriatric health care, diabetic care, phlebotomists, emergency management, dressing skill to strengthen competence of MBBS/MD/MS students and para medical staff as initiative to improve patient health care services. The chairman of curriculum committee has been requested to formulate skill module and identify the trainers so as to implement skill modules with mainstream medical education programs as well as self-help group of community. These activities would be value addition to attributes of medical graduates and postgraduates as well as paramedical employee of the hospital as an attempt to enhance skill development for professional medical practice and community health quality improvement program. Attitude, Ethics and Communication [ATECOM] and Foundation module prescribed by National Medical Commission New Delhi, and affiliating university has already been implemented for Each phase of MBBS and MD/MS curriculum by the college, which includes the development of humanistic, ethical, Constitutional, and universal human values, professional conduct, rights of patient, scientific aptitude for research ethics & life long learning. The College has adopted proactive mechanism and set benchmarks for assessment of attainment of these skills. IQAC in association with group of faculties and students of different phases drawn from different courses has started the process of development of modules for humanistic behavior, ethical clinical practices in health care, constitutional compliance practices, good work place practices, universal human values, professional conduct, practices to ensure safety and rights

of patient, scientific aptitude for research ethics & life long learning. The IQAC has identified areas for development of innovative methods in medical education and patient health care at door step using ICT technology and attempting to establish academia-industry partnership.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

The college has already established "language integration unit" for training faculties and students as an attempt to comply with recommendation for integration of English with regional tribal language in our MBBS/MD/MS program. The "language integration unit" has commenced its activities by imparting informal training to speak, write and understand regional tribal language with integration of English version. The Faculty members have been attempting to deliver multi-lingual T-L session. Short sessions on language integration were part of foundation program for phase-I students of MBBS and first year of MD/MS program were conducted. Initiative for Impact analysis of training would be undertaken by feedback from the community and students. The student and faculties were encouraged to prepare handout in regional language as learning resources. IQAC has been proactively making efforts to develop short term 3 weeks modules for formal training through online mode as value added course. Preparation of course material is in process for approval of curriculum committee. Appraisal template for non-teaching was prepared in bilingual format as an initiative of integration of Indian knowledge system. [<https://forms.gle/LqD37x4FyoT1Jfwv5>]

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

Each discipline has uploaded learning outcomes prescribed by affiliating university aligning with competencies on college website for information of student and faculty. The assessment tools for measurement of "show how, know how knowledge, application of knowledge, analysis of report, MEX-P for quantification and proforma for mapping Course/program outcome with level of attainment has already been implemented as a measure for outcome based education. Each department has developed measurable specific learning outcome for each competency and submitted to Medical Education unit to organise vetting session by multi-disciplinary group of faculty for final review and implementation. The learning resources including e-content, e-books, link for e-journal, handouts has also been uploaded on website for the use of students for self paced learning. The NPTL Chapter has already approved by NPTL, Chennai and utilizing E-resources of NPTL and Satyabratha Channel. The information is also

shared to students through ACPM learning management system. The IQAC in association with some of the department has already conducted training session for Implementation of online quiz session, class test, IQAC has suggested to upload the marking scheme for short and long questions, feedback of correction option of MCQ on learning management system. OSPE/OSCE in practical examination/clinical posting for internal examination at the end of each term has already been implemented. Grading of log book to write their reflections after self directed learning [SDL] and early clinical exposure [ECE], AETCOM session has been and quantitative marks are awarded for continuous evaluation. Regulations prescribed for attendance in practical and other T-L sessions by the affiliating university and National Medical Commission, New Delhi, were strictly complied with. Skill training session monitoring was done using structured lickert scale rating and using OSCE. The new initiatives and practices of the institution to implement effective outcome-based education has been planned and approved by Managing Committee for implementation from the A.Y 2023-24.

20.Distance education/online education:

The college has been implementing multiple methodology for teaching learning process and assessment, thus offers blended learning environment. The college used online education only for conducting value added course for students and developed moddle based "ACPM Learning Management System [LMS]". The students of different phases of MBBS have enrolled and allowed to have access the for course of study. For Value added courses, students register voluntarily. The T-L session and assignment in the form of MCQ were conducted. Since ACPM Medical College is an affiliated College of Maharashtra University of Health Sciences, Nashik and governed by Regulation of National Medical Commission, New Delhi, we do not award or conduct any distance education degree, diploma or certificate courses except value added courses relevant to medical courses to enrich knowledge, skill and communication.

Part B

CURRICULAR ASPECTS

1.1 - Curricular Planning and Implementation

1.1.1 - The Institution ensures effective curriculum planning, delivery and evaluation through a well defined process as prescribed by the respective regulatory councils and the affiliating University.

- Academic boards of the college prepared academic calendar and annual teaching schedule for each phase of MBBS program for 2022-23 for each phase of MBBS program for planning, methods of delivery, relevant effective assessment tools for evaluation of program.
- Postgraduate Academic Board monitored the implementation of prescribed curriculum by the affiliating university.
- The Curriculum Committee, have been mandated to recommend to all academic boards, to ensure effective curriculum planning, delivery and evaluation..
- The teaching plan for 2022-23 for each semester and micro-planning of T-L process reviewed prior to commencement of program in accordance to academic calendar issued by the university for each academic year,
- Heads of the department periodically monitored & reviewed the implementation of schedule of T-L activities and ensured compliance of adherence..
- Blending T-L process. T-L media includes limited didactic lectures, mostly small group T-L session, self directed learning sessions, E-learning Platform like ACPM LMS or Google Classroom for self-paced learning, bedside clinics, Early Clinical Exposure [ECE] sessions, group learning, group seminars, poster presentation by the learners, and quiz sessions has been used.
- Skill training was done in Central skill lab using manikins, simulated patients, procedure simulators, trained normal patients, practical demonstrations, related to competencies during bedside clinics, clinical procedures in day care, labour room, minor operation theatres, , Specific skill training relevant to course competencies prescribed by NMC has been conducted during lab sessions, Central skill lab.. The real time digital monitoring of initiative during skill training as initiatives to ascertain the attainment of medical attributes developed and implemented.

1.3 - Curriculum Enrichment

1.3.1 - The Institution integrates cross-cutting issues relevant to gender, environment and sustainability, human values, health determinants, Right to Health and emerging demographic issues and Professional Ethics into the Curriculum as prescribed by the University / respective regulative councils

- ACPM Medical College & hospital emphasized sensitization of medical students to attain the competencies relevant to gender, environmental sustainability, human values, health determinants, Right to Health and emerging demographic issues and Professional Ethics in health education, while providing training to medical graduates and postgraduates for holistic development. In pursuance to transformation of our vision & mission, the college adopted multiple approaches for integration of these cross cutting issues while imparting CBME Curriculum.
- Primarily, the competencies relevant to cross-cutting issues, included in formal implementation of curriculum during different phases of MBBS/MD/MS program, have been identified and training with more emphasis imparted during regular teaching learning sessions by respective departments.
- Secondly enrichment of curriculum with cross cutting issues e.g. professional ethics, human values, health determinants, and demographic factors affecting health care, spreads over total duration of MBBS/MD program, has been imparting in AETCOM Module and foundation courses as another approach. Hence cross-cutting issues were integrated during regular T-L process.
- Thirdly, the students were encouraged to enroll in value added courses on "Gender Equity", "Epidemiology" and "Environmental and sustainability", as online/offline mode through LMS/Google Classroom, on voluntary basis in small groups as an initiative

towards reinforcement of competencies related cross cutting aspects.

- In addition to above, Seminars, guest lectures, workshops were organized by some of the department of colleges for sensitization of the students apart from during their regular curricular program to achieve holistic development of students.

2.2.3 - Institution facilitates building and sustenance of innate talent /aptitude of individual students (extramural activities/beyond the classroom activities such as student clubs, cultural societies, etc)

- ACPM Medical College organized various extramural activities for sustenance of innate talent of individual students.
- The activities included cultural , sports, drama, dance, singing comeptetion, Ganesh utsav, Holi, Dahl Handi, Eid, Christmas, days of national, international importance, social, environmental sustainability and health importance programs etc.
- All these activities were carried out by various committee of student council with support of faculty as facilitators. The students participated actively demonstrated their innate talent and aptitude individually and as group activities made the events successful.
- The students and faculty have celebrated Independence Day,

Republic day, Mahatma Gandhi Jaynti, Dr Babasaheb Ambedkar Jayanti, Shri Shiv Jayanti, Teacher's day, National TB day, World Mental health day, World Heart Day, obesity day, National Forensic Medicine Day, Breast feeding day, International Women's Day, Tree plantation activities, Swach Bharat, International Yoga day and active participation of students and staff was evident to revere aims and objectives of our esteemed personalities and their contribution towards nation building.

- Organising abilities of the students and faculty were demonstrating aptitude and innate talent as activities beyond the classroom assured the college authorities that initiatives to create environment to acquire holistic professional growth, apart from curricular achievements and motivating the students for building innate talent apart from medical professional curricular activities.
- The objectives of organizing these extramural activities through cultural, seminars, exhibitions, and symposium were achieving the holistic development of professional, ethical, intellectual skills and non-academic abilities to aligned with new education policy 2020.

2.3 - Teaching- Learning Process

2.3.1 - Student-centric methods are used for enhancing learning experiences by: Experiential learning Integrated/inter disciplinary learning Participatory learning Problem solving methodologies Self-directed learning Patient-Centric and Evidence-Based Learning Learning in the Humanities Project-based learning Role play

The Student Centric Methods used during the year 2022-23 included traditional methods according to Andogogy and innovative learning tools of heutogogy. The curriculum committee had number of interactive session with chairman of academic boards to develop newer initiative for effective self paced learning with active role of teacher as competent facilitator having abilities to resolve all challenges of the student and facilitate the attempt of student to achieve medical attributes.

1. performing experiments in practical laboratories,
2. initial learning of clinical skills on mannequins & simulators and on healthy trained human subjects.
3. dissection of dead bodies
4. observing operative major & minors and clinical procedures and operative skill
5. clinical examination & interaction with patients during clinical postings,
6. Maintain of logbook
7. internship program for experiencing realistic learning experience in professional practices of health care services.
8. Field visits to RHTC, UHTC, industries, and other public establishment related to health
9. adoption of families in villages facilitate community based learning in humanities.
10. Hands on training of safe practices of critical clinical skills and participate in simulated scenarios to practice procedural skill,
11. inter-personal skills and participatory learning during project based and group learning.
12. Training in skill lab and early clinical exposure session.
13. seminars, problem-solving exercises, assignments, and problem based exercises relevant to course competencies.
14. self directed learning
15. Periodics module quiz, crossword exercises,
16. preparation of flash cards, opportunity for flip classroom, preparation of chart, algorithms, case presentation, group discussions,
17. dissertation for postgraduate students.
18. Immitating postitive and negative role play

2.3.3 - Teachers use ICT-enabled tools for effective teaching and learning process including online e-resources

The College emphasized robust use of ICT enabled tool in not only in teaching learning but in all areas of medical education and patient care services.

1. Lecture theatres with LCD projectors, PA system, white/black and smart board with built in facilities of remote power presentation, MS office.
2. screen sharing by audience, capture and storage facilities of lectures
3. live streaming facilities of lecture/video
4. Learning management system for remote learning for 24X7 access to this platform.
5. The power point lectures, e-books, Video-lecture of NPTL uploaded on website for remote learning
6. online chat with peers and faculty,
7. online test built in functions of LMS access from off campus location through any ICT enabled devices for remote learning.
8. some of the departments also used Goggle classroom for remote learning and e-communication dissemination of learning resources,
9. feedback of course evaluation, through digital mode
10. Google meet for online lectures, submission of assignment, etc.
11. Digi-frog and Ex-pharma software for computer assisted learning of physiology and pharmacology experiments Subscribed
12. Use of digital equipments like ECG and PFT mobile app based for clinical investigations.

13. Digital library section has ICT enabled facilities for remote access learning resources for assignments, research work, case presentation, journal club etc.
14. E-subscription of full text 700 plus Journal and E-books
15. Real-time digital monitoring of skill training and attainment of skill
16. Subscription of Plag check for use in campus and off campus for research.
17. Developed E-content page on website for remote learning.

2.3.5 - The teaching learning process of the institution nurtures creativity, analytical skills and innovation among students

- The College authority had been sensitized since inception the role of creativity, analytical skills and innovation, and its impact on attainment of medical graduate and postgraduate attributes. "Passion forthe creativity and innovation are closely related to each other; rather creativity result ininnovation" is center point of the college.

- Following initiatives to nurture creativity, analytical skills and innovation in teaching learning process amongst its students of MBBS and MD/MS programs have been implemented.
1. Encouraged to the students for participation in value added courses, capability enhancement program, celebration of days of health importance, gender equity, human values, professional ethics, yoga, women empowerment,
 2. organised creative cartoons/rangoli/charts and models exhibitions health related concepts.
 3. participation of groups of students to frame critical thinking questions and write answer on worksheets, solving puzzles, cross words, missing word during the teaching learning sessions. The faculty plays role as facilitator.
 4. Identify learning outcomes from triggers of clinical problem during PBL session.
 5. Formation of self study groups of 10 students and provide with outcome-based assignment.
 6. Frequent use of problem solving exercises for self assessment and to develop analytical skill and ability to comprehension.
 7. Application of CAL based learning experiences in describing relevance to pathophysiology of disease process.
 8. Case presentation, journal club, clinico-pathological meeting, poster induced questions,
 9. Identification and description of image, effect of lesions and relevance of sign and symptoms.
 10. Identification and impact on health indicators on prevalence, mortality and morbidity rate in community health scenario.

2.5.2 - Mechanism to deal with examination-related grievances is transparent, time-bound and efficient. Provide a description on Grievance redressal mechanism with reference to continuous internal evaluation, matters relating to University examination for submission of appeals, providing access to answer scripts, provision of re-totaling and provision for reassessment within 100 - 200 words

- Students were given opportunities to review their corrected answer sheets and allowed to point out their issues if any on account of any error or discrepancies during the process of assessment, uncorrected question, error in total marks, under-evaluation etc.
- Institutional Examination committee mandated to resolve grievances of student related to under-assessment or re-totaling if any.
- The head of the departments were authorized to carry out re-assessment based on marking scheme of question and resolved the issues.
- Other grievances of the students related to process of continuous internal assessment were mandated to be addressed by the Institutional Examination committee under the supervision of Dean to the satisfaction of students.
- Redressal of grievances of students at institutional examination level has to be resolved within 7 days after receipt of grievance.
- The students have the opportunity to submit his grievances about university examinations to grievance cell of affiliating university for resolving the issues.
- All the students signed against their name on mark sheets of continuous internal assessment prior to submission of university to ensure accuracy & transparency of the process continuous internal assessment.
- The number of examination related grievances received in the academic year 2022-23 were nil.

2.5.3 - Reforms in the process and procedure in the conduct of evaluation/examination; including the

automation of the examination system. Describe the reforms implemented in internal evaluation/ examinations with reference to the following within 100 - 200 words Examination procedures Processes integrating IT Continuous internal assessment system Competency-based assessment Workplace-based assessment Self assessment OSCE/OSPE

- Digital assessment of Theory of University theory Examination : Maharashtra University of Health Sciences Nashik, has launched Digital assessment of theory of University theory answer sheet and approved our examination unit as Digital assessment center (centre No: 1304).
- The center has completed the digital evaluation of summer 2023 supplementary examination in Anatomy, Physiology and Biochemistry from 05/05 2023 to 15/05/2023 and postgraduate examination for 2023
- The process was completed within stipulated period without any hassels.
- The center is headed by Professor & Head of Forensic Medicine as coordinator having in ICT technology. The Center has conducted in-house training for assessors prior to commencement of digital evaluation by the Co-ordinator.
- The assessment hall for monitoring process of examination and monitored continuously by Dean at institution level and by controller of examination at university level.
- Faculties were trained for online examination for theory mainly MCQ, assignments and short & brief questions assessment using ACPM learning Management system portal for internal assessment.
- MCQ based 5 minutes test after each T-L session implemented using ACPM LMS system
- OSPE and OSCE has already been implement.
- IQAC deloped skill monitoring and assessment using digital mode and sought suggestions from stakeholder before implementations.
- initiatives for assessment of skill learning by learner, peer to peer and monitoring the skill training and certification, assessment of assignments, problem solving exercises and peer-to-peer assessment was developed by IQAC and implemented in the year 2022-23.

2.6 - Student Performance and Learning Outcomes

2.6.1 - The Institution has stated the learning outcomes (generic and programme-specific) and graduate attributes as per the provisions of the Regulatory bodies and the University; which are communicated to the students and teachers through the website and other documents

- College has implemented CBME curriculum for MBBS and MD/MS programs with well defined competencies aligned with teaching learning methods, methods of assessment and horizontal and vertical integration approved by Maharashtra University of Health Sciences, Nashik Maharashtra.
- A copy of Curriculum has been uploaded on college website and also sent to each department for information of faculty and student

- The schedule in pursuance to the regulations of affiliating university has been implemented since 2019.
- Each department has derived intended specific learning outcomes aligned with program outcomes [competency] and uploaded on learning Management System for information of faculty and students.
- The CBME curriculum has already outlined the options for assessment of competency. Curriculum committee has discussed the objectivity and feasibility for implementation of assessment tools for level of measurement of intended learning outcomes and faculty of the department prepared specific learning outcome documents for each course and submitted to curriculum committee through academic boards for phase-1 , and 3 for vetting and approval of local managing committee .
- The revised version of learning outcomes of each courses derived from competencies and will be implemented from the academic year 2023-24.

2.6.3 - The teaching learning and assessment processes of the Institution are aligned with the stated learning outcomes. Provide details on how teaching learning and assessment processes are mapped to achieve the generic and program-specific learning outcomes (for each program) within 100 – 200 words

- The College has implemented CBME curriculum prescribed by Maharashtra University of Health Sciences specifying defined competencies aligned with teaching learning methods, methods of assessment and horizontal and vertical integration.
- The curriculum has prescribed mapping of teaching learning and assessment processes, integration of competencies to achieve the generic and program-specific learning outcomes.
- IQAC with association of members of curriculum committee has interacted and proposed a digital model offramework forperiodic assessment for evaluation of attainment of program outcomes and course outcome , mapping with measurable learning outcome on four Point Likert scales [0-4] of medical graduate and postgraduate students.
- IQAC with association of members of curriculum committee has development of MS office Excel based software to analyze the course outcome and program outcome as measure to evaluate of program outcome. The software is shared with each department for information and necessary implementation and suggestion

before approval of managing committee.

3.2 - Innovation Ecosystem

3.2.1 - The Institution has created an ecosystem for innovations including Incubation Centre and other initiatives for creation and transfer of knowledge. Describe the available Incubation Centre and evidence of its functioning (activities) within 100 - 200 words

- The College reorganized research center as "Incubation Center" and included Molecular Lab, language lab, and Central Skill Lab facilitating students to carry out enhance research activities as an initiative to create environment for research & development .
- The center has appointed "Technical officer " as incharge and constituted Research /Docotral Advisory board included senior medical faculties/experts as internal and external members

from medical and industries aimed to expand activities for creation and transfer knowledge.

- The College has initiated process to publish "online Research Journal" in the name and titled "Annasaheb Dr BC Patil Journal of Research in Surgery and Medicine" . and application for seeking ISSN number for title of "Annasaheb Dr BC Patil Journal of Research in Surgery and Medicine" is submitted. The domain for journal "drbcpcailjournal.com" has been registered.
- IQAC has undertaken initiative for submission of Online applications for "DSIR" certificate for recognition of the college & hospital from SIRO in order to fulfill one of the mandatory requirement for grant of financial assistance for research projects of the faculty and students from government funding.
- A weblink is created for information of faculty and postgraduate to submit application for funding of ICMR projects/CSIR.

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The Institution has adequate facilities for teaching- learning. viz., classrooms, laboratories, computing equipment etc. Describe the adequacy of facilities for teaching-learning viz., classrooms, ICT-enabled classrooms, seminar halls, facilities for clinical learning, learning in the community, Teleconferences, AYUSH-related learning cum therapy centre, well-equipped laboratories, skills labs etc. as stipulated by the appropriate Regulatory bodies within 100 - 200words

- College and hospital spreads over 36.5 acres of land with

developed infrastructure as per norms of statutory authorities and upgraded with additional facilities.

- Cath Lab, dedicated Emergency Department and two additional operation theatres made functional in the year 2022-23.
- Well equipped teaching laboratories and dissection hall for providing experiential learning.
- 4 lecture theatres and 26 demonstration rooms and seminar rooms, equipped with multimedia (LCD) projectors, PA system, interactive smart boards, black boards/white boards and other audio-visual facilities.
- Affiliation with 4 RHTC of Government of Maharashtra and urban health Centre in dhule city for specialists services and students community posting.
- Well equipped NABL accredited central molecular lab under microbiology department catering diagnostic services and research
- Well equipped Central skill lab.
- Increased in Clinical workload for training of undergraduate and postgraduate students.
- Increased in managanement sanctioned post for recruitment of additional faculty aimed to increase in intake in .
- Medical education unit is reconstituted as per new regulation of NMC, New Delhi.
- College has augmented its infrastructures as per requirements of National Medical Commission for increase in intake for MBBS
- LOP for increase intake in MD/MS Seatsin existing postgraduate program and starting MD program in Dermatology has beenreceived from statutory authority for academic year 2023-24.
- College has also submitted applications for starting postgraduate courses of National Board of Examination [DNB] for Emergency Medicine, Respiratory Medicine, Otorhinolaryngology and Psychiatry from the 2023-24.

4.2 - Clinical, Equipment and Laboratory Learning Resources

4.2.1 - Teaching Hospital, equipment, clinical teaching-learning and laboratory facilities as stipulated by the respective Regulatory Bodies. Describe the adequacy of the Teaching Hospital, equipment, clinical teachinglearning and laboratory facilities as stipulated by the respective Regulatory Bodies within 100 - 200 words

- The college has maintained prescribed requirements of NMC for teaching hospital of recognized medical college since its inception. The programs offered at medical college are recognized by NMC.
- NABH accredited for entry level
- The hospital has 650 operational teaching beds including 60 intensive care beds, [10 intensive care beds each] in different broad specialities and 30 bedded Emergency beds.
- Clinical teaching facilities available are as given below:
- New well equipped 30 bedded emergency department with ICU beds, Red Zone Beds, and Yellow Zone with facilities of emergency operation theatre, labour room, and X-ray facilities
- 14 Operation theatres [9 for Major Surgery and 5 for Minor Surgery]

- 3 labour rooms
- 10 bedded Dialysis Unit
- Cath Lab Services
- Blood bank with facilities of whole blood and blood components separation with valid license
- ECG and stress test services
- Pulmonary function test facilities
- ART center under national health program
- Facilities for histopathology, hematology and cytology investigation
- Fully automated and semi auto biochemistry analyzer for biochemical investigations
- Electrophoresis unit and electrolyte analyzer
- Molecular Lab approved by NABL
- Audiometry and speech therapy services
- X-rays facilities comprises of 600 mA, 300 mA, 100 mA and 60 mA X-ray units.
- Facilities for ultrasound, Echocardiography, CT scan, MRI
- Well equipped Facilities of physiotherapy & rehabilitation

4.3 - Library as a Learning Resource

4.3.1 - Library is automated using Integrated Library Management System (ILMS). Describe the Management System of the Library within 100 - 200 words

- Library is automated using the Integrated Library Management System (ILMS) under title "SackInfo (ERF)", installed in the year of 2021 and AMC was done in year 2022, being used regularly.

Features:

- Multi-user software Easy search access to books, periodicals and managerial reports WEB OPAC -Online facility automated User-friendly windows based software,
- Retrieval of the data is simple, fast and efficient using OPAC.
- Reports can be made available for analysis and documentation purpose.

Main modules:

- Cataloguing / Acquisition user-friendly cataloguing and acquisition process. Cataloguer has to enter Call no. or Accession no in the software, has facilities of keyword creation to enable keyword and indexed searches.
- User can add multiple material types like books, CD, video cassettes, etc. when multiple copies of books are procured and only single window data entry is required.
- Overall Status of the library books
- Accession register, reports,

- Circulation Module includes, For issue, return, reissue software, search nodes.
- Utilities: Admin borrower module is used to know all the user transactions.
- Serial control:Module is used for the Managing the subscription renewals, missing issues and bindery management. Maintenance of master file of all periodicals subscribed in the library,
- Module provides transactions by borrower Maximum number of books borrowed / top borrowers, Accession register & Cataloguing reports, Circulation report, daily transaction report, overdue report.
- Plagrism software checking using "Plag-check" vialink"http://bhesu.in/plag-check/login.php. The login details and password provided all students and faculty.

6.5 - Internal Quality Assurance System

6.5.1 - Institution has a streamlined Internal Quality Assurance Mechanism. Describe the Internal Quality Assurance Mechanism in the Institution and the activities of IQAC within 100 - 200 words

- IQAC cell is reconstituted in academic year 2022-23 in pursuance to new guidelines of NAAC revised & duly approved the Chairman of Local Managing committee.
 - IQAC Cell of college has developed newer initiatives for quality improvement by reviewing existing SOP and developing structured framework for implementation, periodic assessment and evaluation.
 - IQAC has held four meetings to resolve following quality assurance initiatives for implementation.
1. Domain based email ID has been issued by IT department head for communication with other authorities of the college.
 2. The IQAC cell used ICT facilities for continuous feedback and redressal any of the issue of departments.
 3. Developed quantitative format for annual appraisal of teaching and non-teaching employee.
 4. Reviewed the feedback form for students, teachers, parents, alumni, employers and professionals.
 5. Training of faculty for robust use of implementation of online continuous assessment through ACPM Learning Management system portal.
 6. Undertaken initiatives in pursuance of recommendations of NEP

2020.

7. complied the suggestions of peer team report after visit of institutions.
8. Prepared 5-year strategic plan w.e.f. 2022 to 2027 for quality improvement and innovations, patent, research and health care facilities.
9. Developed excel sheet for computation of course outcome and program outcome.
10. Developed excel sheet for computation of performance of student in term exam to measure mid-course improvement
11. IQAC reviewed & identified the challenges and opportunities vis-a-vis implementation of NEP-2020 to prepare for compliance of the objectives.
12. IQAC Cell developed digital template for data collection of quality initiatives from all the departments, approved by local managing committee for implementation.

7.1.4 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 100 - 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

- Solid waste management and Biomedical waste management
- Dry and wet solid waste is segregated at source and stored in Color-coded dustbins are made available at all the important strategic locations in the campus.
- The college has MOU with government-approved agency as per the guidelines prescribed by state pollution control board which collects the solid waste on daily basis for disposal according to protocol.
- Liquid waste management
- Liquid waste generated in laboratories, and hospital is diluted prior to disposal and treated with in STP plants installed in college campus.
- E-waste management
- Waste material generated from IT hardware and peripheral are disposed under exchange scheme or sold to e-disposal venders.
- Waste recycling system
- The excess cooked food in college mess was distributed to relative of poor patients and left over food by the students after their meal is process in composting machine installed in campus for generating manure for garden.
- Hazardous chemicals and radioactive waste management
- Hazardous chemical waste is mainly generated in practical lab is diluted and disposed off with other non-hazardous liquid, thus minimizing its hazardous effect. The institute does not

utilizes any radio-active substances

7.2 - Best Practices

7.2.1 - Describe two Institutional Best Practices as per the NAAC format provided in the Manual (Respond within 100 - 200 words)

Best Practice for the year 2022

Title: Development of quality improvement measures after Assessment health indices of Rural and Tribal community

Objectives:

Analyse socio-demographic and health profile of community rural and tribal area

Context: Greater prevalence of disease and disabilities in rural and tribal population deserve increased preventive and palliative health care due to socioeconomic and educational attributes. There is gap between utilization and availability of health care services. Quality of life is more challenging in rural and tribal areas.

Practice:

Demographic data and analysed. Areas for initiatives for improvement

in quality of life is discussed and extension of this practice was proposed to be undertaken in 2023-24.

Evidence of success:

Conclusions of analysis indicated improvement in life style associated factors, satisfaction with health camps, increased knowledge of risk factors associated with quality of life.

Problems encountered and resources required

Language barriers be resolved.

Best Practice for the year 2022

Title: Internalization of Basic life support skill amongst the individuals across the society

Objectives:

Increased pool of trained individuals across the society

Context:

Scarcity of BLS skills amongst the community in rural and tribal dominance areas was felt need to undertake this best practice.

Practice:

Reflections of the participants analysed and action plan for the year 2023-24 proposed for implementation.

Evidence of success:

Impact analysis reveals satisfaction of training session and the participant felt competent to provide primary resuscitation to sustain the vital parameter within survival limit.

Problems encountered and resources required

Pre-training knowledge about BLS skill training desired.

7.3 - Institutional Distinctiveness

7.3.1 - Portray the performance of the Institution during the year in one area distinctive to its priority and thrust within 100 - 200 words

Innovative T-L Method

The impact of practice of using "Innovative T-L Method" in addition to commonly used T-L Methods to assessment of attainment of medical attributes in different phases of curriculum was our USP to portray the distinctive area . This practice was adopted in the year 2019 till 2021. The evaluation of Innovative T-L methods, training of faculty, development of LMS for exclusive use of our students was done from time to time. A total of 197 student submitted their reflection in Google form. The analysisrevealed that innovative T-L Methods supplemented the attainment of intended outcome at self-paced learning.

Some of the innovative methods i.e. Scenen cast,Flip classroom, Group learning facilitated the student'sability to analyze, comprehension and problem-solving skill-based competencies of curriculum. Co-operative learning foster communication, leadership, trust building, decision making, conflict resolution and group processing. LMS served as virtual classroom but used by very few students and challenging issues have been identified with action plan for implementation. LMS was perceivedto foster the autonomy at self-paced learning environment and continuous self-assessment. Project based assignments, Google classroom and Group learning were helpful to meet the challenges of difficult knowledge-based competencies.

Use of innovative methods would be continued for the year 2023-23 with modifications in the existing methods to facilitate comparatively more student friendly for higher domain learning and inclusion of some additional innovative methods.
